Huge Heating Chamber

Huge ceramic chamber helps you get best experience on vaping.

1.How to charge the device

- Charge your FLOWERMATE® V5.0 Pro device for 4 to 4.5 hours initially.The power of the vaporizer will be shown with bars on battery icon while charging, full power will be shown with "fully charged".
- Charging while the vaporizer is ON, the full screen keep light up and the battery icon keep filling. But charging while the vaporizer is OFF, the screen only appear the battery icon.
- Connect the AC/DC adapter to your device then connect the other end to your power outlet.
- Battery need recharging when battery icon on display flashes (10) times or you can not get heat up when pressing any button.
(It does not have a pass-through function for protecting the battery and vaporizer.)

2.How to turn on the device

Press the Power Button (5) times within 2 seconds consecutively. It will appear "SYSTEM ON" accordingly on the display screen.

3. How to install mouthpiece

Push the slider on the bottom of the device, get out the mouthpiece, push the slider on top, screw the mouthpiece inot the device.

4. How to load herbs

Unscrew the mouthpiece, load the herbs into the ceramic heating chamber, and then screw back the mouthpiece.

5. How to enjoy the vaporizer

After turn on the device, the OLED display showed "System ON" and heating automatically to reach the "SET TEMP", which the vaporizer memorized as the same number as last time you close it.
Each enjoying have 6 minutes, then OLED display goes off, it is in a sleep-mode and the device stopps heating.We can stop the sleep-mode by any operation on buttons and restart.

6. How to adjust the temperature setting

Press the "+" or "-" button to adjust temperature. Each press will add/decrease 1 °F or 1°C accordingly. Which will change the numbers in "SET TEMP", and the Temperature bar icon is varying accordingly.
Press the "+" and "-" button simultaneously, you can shift the temperature between Fahrenheit System (°F) and Celsius system (°C).
Wait till the "ACT.TEMP" to be the same as the "SET TEMP", pull the mouthpiece, then you can start to inhale slowly to enjoy.

7. How to turn off

There has two kinds of operation to stop the FLOWERMATE® V5.0 Pro:
1.Holding the Power Button lasting 2 seconds,OLED display showed"SYSTEM OFF". 2s over ,it will turn off automatically .
2. Press the Power Button (5) times within 2 seconds, OLED display showed" SYSTEM OFF".
